To: Subject: STIC-Biotech/ChemLib Sequence search 10/001,844

Hi David,

I need to order a "length over score" nucleotide sequence search on nucleotides of SEQ ID NO:3 (1576 nt long) in the above entitled case. I need the lower and upper limits to be 8 and 50, respectively, I need those hits complementary to the 70% level, and please transfer as many hits into the excel program as possible. I do not need the interference databases searched.

Thanks, Doug Schultz
